SOPHEAK TUN

Lynnwood, WA | tspheak@gmail.com

SUMMARY

Detail-oriented assembler at an aerospace electronics manufacturer. Runs 2 laser-trim machines at the same time in a cleanroom, then functionally tests trimmed sensors to bring them into spec and records actuation and deactuation points. Also builds aircraft wheel and tire sensors in the Hub & Axle area. Works carefully to spec, safely and in an organized way. IT support background and a Master of Information Technology add strong troubleshooting and documentation skills.

SKILLS

- Running 2 laser-trim machines at once • Functional sensor testing to spec • Recording test data
- Wheel/tire sensor assembly (Hub & Axle) • Wire coil winding • Part testing • Housing matching
- Cleanroom work • ESD-safe handling • 5S and Standard Work • Following work instructions and specifications
- Safety: PPE, LOTO, safe chemical handling (SDS) • Clean, organized workspace • Inventory tracking
- Communication and teamwork • Microsoft Office • Hardware and software troubleshooting

EXPERIENCE

Cleanroom Assembler II (Laser Trim Operator and Functional Test) 02/2026 – Present

Crane Aerospace & Electronics, Lynnwood, WA

- Started as a contractor; hired on as a permanent employee in June 2026.
- Operate 2 laser-trim machines at the same time to trim proximity sensors in a cleanroom.
- Functionally test trimmed sensors to bring them into the acceptable spec range, recording actuation and deactuation points.
- Match housings to sensors before parts go to sealing.
- Currently also build aircraft wheel and tire sensors in the Hub & Axle area, including winding wire coils and testing parts.
- Identify and report quality issues to the lead or supervisor to protect product quality.
- Follow ESD and safety procedures and support 5S and Standard Work to keep a clean, organized work area.

Baker (Dough Preparation) | 85C Bakery Café, Lynnwood, WA 12/2025 – 02/2026

- Measured, portioned, and staged dough for large-scale production, following SOPs and food safety rules.
- Kept products consistent and accurate, and tracked inventory to support production targets.

IT Support Technician | ARYZTA Australia Pty Ltd, Sydney, Australia 09/2022 – 11/2024

- Troubleshot hardware, software, and network issues for staff in person and remotely, keeping downtime low.
- Tracked, maintained, and set up IT equipment, and managed user accounts and access in Active Directory.
- Kept accurate documentation and followed company IT procedures.

Sanitation Worker | ARYZTA Australia Pty Ltd, Sydney, Australia 10/2020 – 09/2022

- Cleaned and sanitized production equipment to meet food safety and quality standards, working closely with QA.
- Followed detailed written procedures and handled chemicals safely under WHS and SDS requirements.
- Worked in confined spaces following PPE and LOTO procedures, and reported equipment issues.

Waiter (Part-Time) | Pepper Lunch Australia, Sydney, Australia 01/2017 – 04/2020

- Provided fast, accurate service in a busy restaurant during peak hours.

EDUCATION

Master of Information Technology | University of Technology Sydney, Australia 09/2019

Bachelor of Information Technology (Management Information Systems) | SETEC Institute, Cambodia 10/2012
